

THE NEWS.

Our dispatches of to-day (what few the telegraph has doled out to us at the eleventh hour,) bring very little of an interesting character, save from over the water. The difficulties there seem to be in no immediate prospect of settlement, but on the contrary, fighting still goes on.

Gen. Rosecrans has taken his military headquarters from a seclusion in St. Louis, conditionally.

There are a few Southern straws which show which way the wind blows.

Gen. Gilmore's Expedition.

Gen. Gilmore's expedition to Florida proves to be much more important in its results than was at first anticipated by those unacquainted with its designs. Besides the number of cannon, the supply of ammunition and the large amount of other valuable property taken, the occupation of Florida by our forces is destined to cripple the rebel government more than any thing which has lately befallen them. Since the clearing out of the Mississippi River by our victorious armies last summer, thus cutting off Texas, the great beef producer of the confederacy, they have been obliged to look to Florida for this prime article of subsistence. A secret circular addressed to some of the principal men of Florida by Chief Commissary White has fallen into the hands of our officers, and represents fully the straits to which the confederate armies are driven for supplies and of the vital importance Florida has become to them. This circular was dated Nov. 2, 1863, and contains extracts from letters from various officers, showing the desperate condition to which their armies are reduced. Major Cumming, the Chief Commissary of Gen. Bragg's army writes that "it is absolutely and vitally important that all the cattle that can possibly be brought here should be brought here as promptly as possible, that all other resources are now exhausted and that we are now dependent upon your State for beef for the very large army of Gen. Bragg," and much more of the same and a more despondent tenor. Major Locke, Chief Commissary of Georgia, writes:

"I pray you, Major, to put every agency in motion that you can send cattle, without a moment's delay, toward the Georgia borders. The troops in Charleston are in great extremity. We look alone to you for cattle; there in Georgia are exhausted." Major Guerin, Chief Commissary of South Carolina, writes: "We are almost entirely dependent on Florida, and it is of the last importance at this time that the troops here should be subsisted." Major Miller of Savannah, on Oct. 19, says: "I assure you, Major, that the stock of Bacon and Beef for the armies of the Confederate States is now exhausted, and we must depend entirely upon what we may gather weekly. Starvation stares the army in the face! The handwriting is on the wall!" These are but short extracts from a long recital of the wants and destitution and hopelessness of the rebel armies. With the occupation by our forces, of Florida, now their main dependence, their end is hastily approaching.

GENEAL HENNING. Mr. Paul Young writes at Berkeley, Ky., from on board the gunboat *Silver Lake*, to his parents in this city, under date of Feb. 4, giving some interesting items in reference to matters on the river. This boat, with a number of others, is employed as a river patrol, to prevent the guerrillas from obstructing navigation and committing depredations. On the 2d inst., the *Silver Lake* was fired on from the bluffs, and the pilot-house, cabin and state rooms riddled with bullets, injuring no one, however, except an elderly rebel who had been captured and taken on board. He survived his wounds only a short time. When the boat arrived in favorable position the woods were shelled and the rascals driven off. A Tennessee cavalry regiment had crossed the river and was likely to make a haul of these prowling bands. The gunboat service on the river, just now, must be rather arduous and exciting, but our boys are evidently equal to the emergency, and the robber rebels will tire of their work before long.

NEW CONVERTS.—It is hardly possible to believe that Brooks of New York, the editor-in-chief of the *Express*, and now a member of Congress from that city, has been converted to the doctrine of universal emancipation. Yet strange as it may seem, he has already announced himself in favor of it, and declared that the abolition of slavery was an accomplished fact, recognized by this government and by that at Richmond. Hereafter he will act as if abolition were established, and he would give the administration till next September to end this war. But what is hardest to be believed is that S. S. Cox, member from Ohio, the vilest denouncer of emancipation in the whole House, is understood to be "preparing an elaborate speech, in which he will declare for abolition and free negroes." Verily this is an age of wonders as well as of improvement.

RECRUITING IN NEW YORK.—The New York *Tribune* charges that the system of recruiting lately pursued in that city is one of the greatest scandals of the war: "It has been one of organized pillage, resort being had to lousing with narcotics, pious threats, violence, false representations and kidnapping in order to furnish victims to the bounty-brokers and fill up the army with discontented and unfit men. Cripples, old men, mere boys, men laboring under incurable diseases, and soldiers previously discharged for physical disability, form a great part of the recruits recently enlisted in this city."

STATE NEWS.

Out of three criminal cases before Justice Cathbert, of Appleton, on Monday of last week, one was for rape, with attempt to commit abortion, and another for an attempt to commit abortion. A nice town, truly.—The Mayor of Appleton proposes to erect a fine block of stores in that place the coming season.—The "Appleton Democrats" have heard some, to them, unwelcome truths from a gentleman who lectured there, by the name of Sheppard. The *Crossed* squirms. That Good Shepherd evidently ought to be "hit 'em again."

Dry wood is selling in Appleton at \$2.50 per cord, and green at \$2.00. Happy country.—On Saturday last, John M. Jones, of Madison, while out target shooting in company with other boys, had a ball from a pistol accidentally discharged, lodged in the calf of his leg.—A wooden house in the second ward of Madison, belonging to Mrs. Harter, was burned to the ground. Loss \$300. Insured in the Madison Mutual for \$150.—Another wing of Harvey Hospital was opened on Monday evening, with appropriate ceremonies.—A serious accident occurred a few days since at Berlin to Henry and Alice, children of Mr. William Strong. They were riding in their sleigh with their father and Rev. Mr. Conrad, when a runaway team dashed against the hind end of the sleigh, throwing the two children out, one of the horses falling upon them, injuring them severely, though it was hoped not fatally.

Indiana State Convention.

The following is the ticket nominated for State officers at the Union State convention held at Indianapolis yesterday:

Lieut. Governor—Oliver P. Morton.
Lieut. Governor—Nathan Kimball, of Martin.
Treasurer—John J. Morrison, of Washington.
Auditor—Thomas B. McCarry, of Wabash.
Attorney General—E. D. Winslow, of Putnam.
Supreme Judges—James H. Frazier, of Kosciusko; J. T. Elliott, of Henry; Charles A. Ray, of Marion, and R. C. Gregory, of Tippecanoe.
Chief of Supreme Court—Laz. Noble, of Kosciusko.
Reporter of Supreme Court—Benj. Harrison, of Marion.
Superintendent of Public Institution—G. H. Hays, of Marion.
Presidential Electors for the State at Large—Jared J. Gooding, of Hancock, and R. W. Thompson, of Vigo.
Delegates for the State at Large—Daniel Mace, of Tippecanoe, and James L. Slater, of Ripley.

CALL FOR A NATIONAL UNION CONVENTION.—The following is the call of the National Union Committee for a National Convention to be held in Baltimore on the 7th of June next:

"The undersigned, who by original appointment or subsequent designation to fill vacancies, constitute the Executive Committee created by the National Convention held at Chicago on the 16th of May, 1860, do hereby call upon all qualified voters who desire the unconditional maintenance of the Union, the supremacy of the Constitution, and the complete suppression of the rebellion, with the cause thereof, by vigorous war, and all apt and efficient means, to send delegates to a convention to assemble at Baltimore on Tuesday, June 7th, 1864, at 12 o'clock, for the purpose of presenting candidates for the office of President and Vice President of the United States. Each State having a representative in Congress will be entitled to as many delegates as shall be equal to twice the number of electors to which such State is entitled in the Electoral College of the United States."

A TRAGEDY.—A returned soldier, belonging to one of the re-enlisted regiments now home, had some trouble with his wife, occasioned by jealousy, at Tarkenton, Conn., a few days since, and shot her dead, and subsequently killed himself. The deed was witnessed by a child of the parents, a little girl, who says her mother knelt down and received the shot, as if there was an understanding between her self and husband that they should both die.

—One of the recently published French works maintains that every ten thousand five hundred years the waters of the sea pass from one pole to the other, and then, passing over and under the continents, return to the sea and all its inhabitants. According to the author of this theory, M. Paul de Jomponel, the last of these deluges occurred four thousand five hundred years ago; the next one is due in six thousand years more.

—A little boy once said to his aunt: "Aunt, I should think that Satan must be an awful sight of trouble to God." "He must be trouble enough, indeed, I should think," she answered. "I don't see how he came to turn out so, when there was no devil to put him up to it," said the uncle.

—The camels imported for the Government six years ago, and since kept near the Tejon reservation on the plains, have increased from fifteen to the present number. They are now removed to Benicia, California. They can easily travel fifty miles a day, but they are not allowed to do more than thirty. One of them has carried four bales of wool or cotton.

—The largest amount of stamps ever affixed to one document have been placed on a deed of conveyance from Messrs. Flag, Huntley & Williams to the Chicago & Alton Railroad. The amount of the conveyance was \$1,100,000, on which there was a returned mortgage of \$400,000, and the stamps amounted to \$14,395.

LOCAL MATTERS.

PUBLIC DOCUMENTS.—We are indebted to Hons. J. C. Sloan and J. R. Doolittle for valuable public documents.

THE LADIES OF THE SOLDIERS AID SOCIETY, are requested to meet to-morrow at their rooms from 10 o'clock A. M., to 5 P. M. By order of Secretary.

Mrs. A. K. Allen.

SOCIAL PARTY.—A social party for the benefit of Rev. G. W. Lawrence, will be given at the house of George W. Bonnis, in the town of Rock, on Friday evening, Feb. 26th. The friends of Mr. L. are cordially invited to attend.

UNION SERVICE.—To-morrow (Thursday) being the day annually observed by the various denominations as a day of prayer for institutions of learning and for the youth of our country, there will be a Union service at the Presbyterian Church at 2 o'clock P. M.

PASSING TO THE FRONT.—Just at the edge of evening yesterday, a train of cars passed through this city going South, having on board the Third Wisconsin Regiment, numbering 276 men, and the 5th Wisconsin Battery, with a full complement of 150. The men were evidently in the best of spirits, as was evinced by their songs and shouts. These commands go to the Army of the Potomac.

BOOTH'S COMPOUND SHAKER.—In another column will be found an advertisement of Booth's Compound Shaker for separating out and fanning seed from wheat. Having had an opportunity of witnessing its operation we speak understandingly when we say that no machine could work more effectively. The food wheat can be so thoroughly cleaned that not a particle of foreign matter will remain in it. It will pay any farmer to procure one. J. & J. Clark are the agents for Janesville, at the "Big Mill."

DOTT'S WASHING MACHINE.—There is no greater want throughout the whole community of households, than a good washing machine, and no department in which the inventive genius of our mechanics and artisans has more utterly failed to meet these wants. We confess we felt very reluctant when asked to test this machine, to have anything to do with it. There had been so many worthless machines imposed upon the public without one that had ever proved really successful, that we had no confidence in this. But so far as we have been able to test this one, it has proved a decided success, and we candidly advise all house keepers to give it a trial. It works easy, does not wear the clothing, will wash the heaviest articles, such as sheets and coverlets as well as the small pieces of washing, and reduces the labor of washing day to mere nothing. This machine is the invention of Mr. William M. Doty, formerly of this city, well known to most of our citizens, and may be found at the cash factory of his brother, Mr. E. P. Doty.

INSURE WITH THE MUTUAL LIFE INSURANCE COMPANY OF WISCONSIN.—It is the Best Company for Western Men!—The reasons why this is the best Company are: That it is a Western Company, made up of and managed by Western men, doing all or nearly all its business in the Northwest, and concentrating in this one Company a superior class of risks, mostly of young men, or men in the prime of life, and they selected with as great care in regard to eligibility to Life Insurance, as are the risks of any other company.

It is true that the Company has neither the age nor the accumulations of some eastern companies, but is gaining the latter very fast; is rigorous for one of its age; is doing a large business, having issued 537 policies in the months of December and January just passed, and is doing its business as economically as the same can be done anywhere. It has for its guide, the experience of all other companies, and among its managers some of the best business men in the northwest.

This is the first successful effort ever made to build up a similar institution in the West, and it should be the pride, as it certainly is the interest, of every business man in this section of the State, to identify himself with its growth.

This Company issues non-forfeiting policies, upon which premiums are paid in five or ten annual payments. These non-forfeiting policies are very desirable, as they guarantee to the policy holder the benefit of all the money that he pays into the Company, and also enable him to pay his premiums for the whole of life while he is young, or at an early period, thus relieving him from the burden of payment in old age. Insurance upon this plan, (as well as on all other policies that this Company issues) become due and payable at death, should death occur before the ten years expire.

It also issues the endowment policy which becomes due and payable to the party assured at a stated age specified. These latter policies are becoming quite popular, and are particularly desirable for young men.

WILSON'S MUSIC STORE.—We invite the attention of our readers to the advertisement of Mr. Wilson, in another column. Mr. W. keeps a good assortment of musical instruments, as well as sheet music and instruction books. He sells KNABE & Co's celebrated Pianos, manufactured at Baltimore; probably the best and sweetest toned piano now manufactured.

TO THE FARMERS OF ROCK AND ADJOINING COUNTIES.—The necessity of having machinery for the cultivation of your lands and the prosecution of your business is acknowledged by all. Your fathers who were farmers thought the cradle a great improvement over the sickle. You don't think the cradle is to be thought of in the same day with the reaper. Every year brings out some new machine or an improvement on an old one.

Many of the supposed improvements have been tried and found wanting. None but the useful and economical machine obtains and retains general favor. The Grain Drills have now been in use a sufficient time to have their peculiarities tested. As they have been yearly rising in public favor it is presumed that they have some merits. The original drill has been very much improved. And of course the present drill can be improved, but who is going to improve it. The improvement that would most likely prove to be an improvement would naturally come from the parties who are interested in the improvements. The farmer is the only one who knows by experience, what and where improvements are needed. I am engaged in making the Badger State Drill and it is my pride as well as my interest, to make them as near perfect as I can. The object I have in addressing you at this time is to get some suggestions from you that will enable me to make a drill just as it ought to be.

I have no doubt that many farmers often see where the machines they are using could be improved. Now why not communicate your ideas of the improvement to the manufacturer, thereby enabling him to make a better machine than he otherwise could. I should be pleased to hear from any and every farmer who has any practical knowledge of the use of drills.

DIED.

JANUARY 22d, 1864, HENRY D. WILKINS, in camp at Milwaukee, Wis., 22 years of age. He was born in St. Louis, Mo., Nov. 11, 1841. His parents, William and Sarah Wilkins, came to Wisconsin when he was an infant, and settled in Durand, Walworth county. He is said to have died of cholera, and was buried in the Catholic cemetery at Milwaukee. He was a member of the Grand Army of the Republic, and was a very brave and patriotic soldier.

OUR MORNING DISPATCHES.

FROM GRANT'S COMMAND.
KNOXVILLE, Feb. 23d.—Political discussion is growing rife here in view of the coming election. It is feared Gov. Johnson's test oath will cause many Union men to stay from the polls, who deny his right to impose it.

It is thought that Knox county and a good part of East Tennessee will be rid of rebels by the 1st Saturday in March. Either army will act in view to that end. The enemy have drawn back their forces to the north bank of the French Broad and their infantry and artillery crossed the Holston at the Plains.

The railroad bridge at Loudon is progressing at the rate of 100 feet a day, and will probably pass trains over on the 6th. Gen. Stoneman made a reconnaissance in force yesterday fourteen miles on the Sevierville road, and returned without finding the enemy.

Lord's division, commanded by Jennings, has crossed the river at Strawberry Plains. The rebel artillery has begun to cross, and a few siege guns are already over.

There are employed from 100 to 150 men daily on the bridges, which it is said they can complete in two or three weeks. CHATTANOOGA, Feb. 23.—Latest reports report, without confirming, Longstreet's army across French Broad River. It is thought that having failed to accumulate force sufficient for prompt and energetic operations on our communications, he has grown fearful of concentration against him, and is now endeavoring to form a junction with the latter at Dalton before spring campaign can open.

The largest estimates give him 20,000 infantry and 50 field pieces. Johnston is known to have at Dalton six divisions of infantry or about 30,000 men.

The two armies concentrated will probably muster 60,000 men, and might prove dangerous.

Great dissatisfaction still exists and evidence of the demoralization of the rebels are numerous.

The Provost Marshal General's (Parkinson) report for January and half of February will show a total of 3,276 deserters from Johnston's army.

Gen. Palmer has remained in peaceful possession of Ringgold, Ga., and the Gap covering Chattanooga.

The enemy may yet accept his invitation and fight. Rumor had it yesterday that Hardee was west of Lafayette, Ga., trying to get across Lookout Mountain and make a descent to Ridgeport, but this is also, as Gen. Palmer pushed a detachment into Lafayette today, driving the enemy out. The enemy suppose that Grant has been concentrating at Knoxville to drive Longstreet out, thus weakening Chattanooga, and may be foolish enough to attack us here.

Look for active operations before April. Adjutant John Shepherd, of the 9th Kentucky, has been exchanged, and is here.

MEMPHIS, Feb. 20.—A courier just from Gen. Smith's cavalry expedition reports that the Tallahatchie River was guarded for 15 miles in front of Holly Springs, as Forrest expected the expedition would reach that place.

Smith advanced his brigade of infantry, and occupied the enemy from this side while he moved east to New Albany, with cavalry, where they effected a crossing on the 10th, being delayed twenty-four hours by the slow movements of Harrington's brigade.

MEMPHIS, Feb. 22, via Cairo, Feb. 23.—A few soldiers went into Brownsville, Tenn., a day or two ago, and having found them, got intoxicated, and were set some houses on fire. It is said seventeen houses were consumed before the flames were subdued.

The enemy was taken completely by surprise by this movement, and Smith ordered Potomac to noon of the 17th, where skirmishing was going on when the courier left.

All were in fine spirits and confident of penetrating the vitals of the Confederacy, and coming out safely. Twenty-four prisoners were taken at Tallahatchie.

Cotton dail and unchanged.

SOUTHERN NEWS.
WASHINGTON, Feb. 23.—Late Southern papers received state that Gen. Tombs was being court-martialed at Savannah.

The Montgomery Mail says: "General Polk, in the Union of high military authority, committed a grave mistake, one which may entail almost irretrievable disaster on our arms in this Department. So far we have been badly out-generalled." The correspondence between Jeff. Davis and Gen. Joe. Johnston, in connection with the Vicksburg campaign, as communicated to the rebel Congress, was very sharp on both sides, and shows that they were greatly at loggerheads.

AFTERNOON DISPATCHES.

LATER FROM EUROPE.

More Fighting between the Germans and Danes!

REPORTED REVOLT AT COPENHAGEN!

American Matters in Parliament!

FROM THE INDIAN COUNTRY

FOREIGN NEWS.

New York, Feb. 24.—The steamer *Hensa* brings two days later news.

Parliamentary news unimportant.

Schleswig affairs are under control of the German Diet. Prussia positively declined it, but would respect the integrity of Denmark. It is fully confirmed that the Danes retreated from Schleswig, and evacuated the Dannevirke, and blew up their works at Missunde. The Germans followed the Danes to Flensburg, when the latter retreated towards Duppelsee, where an engagement had taken place, with considerable loss on both sides. The Germans secured great booty and a great number of prisoners. According to some authorities the Dutch possession of Schleswig is ended. It is thought the Danes will make formidable stand at Duppelsee, where they will be supported by their fleet.

Great excitement existed at Copenhagen, caused by the Danish retreat. It is reported in Paris that a revolution had broken out at Copenhagen, and that the King of Denmark had embarked for England and the King of Sweden had been proclaimed in his place. English journals continue very anti-German conservatives and hold Russell responsible for Danish reverses.

LIVERPOOL, Feb. 10th.—The rumored revolution in Copenhagen is unfounded.

The Prussians occupied Flensburg; the Austrian losses were 1,100. Earl Russell stated in the House of Lords, that Minister Adams thought it prudent to withhold Seward's offensive dispatch, at which Derby was so indignant, and it had never been presented.

Laird said America had not made any demand for indemnity for the Alabama's doings.

Provisions quiet and steady. Consols for money, 90 1/2.

THE WAR ON THE FRONTIER.

FORT SMITH, Ark., Feb. 23, 1864.—A number of dispatches from the expedition sent into the Indian country, has reached Gen. Thayer's headquarters. The troops are now 100 miles south of Fort Gibson, the rebels having returned to Red River, where they are massed in force.

Gen. Maxey was present with the Choctaw Legislature ten days ago and urged the Indians to remain at home and raise their crops.

Delegations were present from the Choctaw, Creek, Cherokee, Chickasaw, &c., tribes. The Choctaws urged a separate Confederacy, as the rebel Confederacy was unable to protect them. The rebel Creeks were prepared to fly into the Wachtin Mountains.

All the Canadian and tributaries were clear of rebels. The Upper Peninsula country has been completely swept out, so that all rebel supplies must come from Red River in any movement toward Arkansas.

Therebel Indians are entirely disheartened, General Maxey having failed in his promise to place a force between the Canadian and Gibson. Maxey has either to content himself with defending Northern Texas, in which case he will lose his Indian allies, or recover the prestige which he has lost by attacking our forces on the Arkansas River.

Phillips' brigade had a fight with the rebels and Texans on Middle Boggy River on the 14th, killing 40 of them. Our loss one. The enemy were pursued to Fort Arbuckle. Our forces then retired to Canadian.

Fort Smith has been included in the Department of Arkansas, and Gen. Thayer has established his headquarters there.

FROM ST. LOUIS.

St. Louis, Feb. 24th.—The *Morning Herald*, suppressed by military authority two years ago, will shortly reappear by permission of Gen. Rosecrans, on condition that it must be truly loyal and contain nothing calculated to embarrass military operations or discourage enlistments.

FROM SALT LAKE CITY.

St. Louis, Feb. 23d.—The *Democrat's* Salt Lake City correspondence, dated the 6th, says a desperate band of highwaymen exists along the road from Salt Lake to the Banneff mines, who rob, and murder returning miners. Some time since the citizens of Banneff formed a vigilance committee, who have hung thirteen of the robbers, including Henry Plummer, their captain, and the Sheriff of Banneff and Stinking Water mines, Buckstone, Deputy Sheriff, and Geo. Lane, Deputy Sheriff of Virginia City.

PROCEEDINGS OF CONGRESS.

WASHINGTON, Feb. 23d.—SENATE.—The Senate proceeded to the consideration of the bill to equalize the pay of soldiers in the army.

An amendment of Mr. Davis, of Kentucky, which proposed to disarm the negro troops, was voted down by 20 to 7. The Senate agreed to the report of the committee of conference on the revenue bill.

The consideration of the bill to equalize the pay of colored troops was then postponed.

Mr. Sumner, of Massachusetts, presented various petitions relative to the abolition of slavery from persons in Ohio, New York and one from Gov. Andrew, Josiah Quincy and members of the Senate and House of Representatives of the State of Massachusetts for the same purpose.

After executive session the Senate adjourned.

WASHINGTON, Feb. 23, 1864.—HOUSE.—The House resumed consideration of the bill to establish a Bureau for Freedmen's Affairs.

Mr. Kelly of Pennsylvania advocated the bill and pressed its immediate passage, to meet the exigencies which have arisen under the present war.

A message was received from the Senate, that that body had concurred in the report of the Committee of Conference on the whisky bill.

The House refused, yeas 47, nays 86, to agree to the report of the Committee of Conference on the whisky bill.

The terms of agreement were transmitted hence yesterday in advance of the report and is already published.

Another Committee of conference was ordered.

Over Five Thousand Bottles have been sold in its native town, and not a single instance of its failure is known. To have, in our possession, any quantity of certificates, some of them from eminent Physicians, who have used it to their practice, and given it the preference over any other compound.

It does not Dry up a Cough,

but loosens it, so as to enable the patient to expectorate freely. Two or three doses will invariably cure Tickling in the Throat. A half bottle has often COMPLETED CROUP the most

STUBBORN COUGH.

and yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children, or any age.

IN CASES OF CROUP,

we will guarantee a cure if taken in season. No family should be without it. It is within the reach of all the price being

Only Twenty-Five Cents

and if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.

DO NOT WASTE AWAY WITH COUGHING,

when so small an investment will cure you. It may be had of any respectable Druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.
